YOUTH TRAIL CREW

Isaac Bevis

Owen Bevis

Kate Miller

Ben Phocas

Sarah Soper

Will Walker

As I conclude my sixth year on the Friends of Pathways Board, I've taken time to think about what we've accomplished together. Some of the most meaningful benchmarks that we've reached with your support and advocacy are:

- Connecting missing links in the pathway system from Grand Teton National Park to the Town of Jackson, to Wilson to South Park Neighborhoods.
- Envisioning a more complete trail system and completing the Snow King Area Trails Plan in cooperation with the Bridger-Teton National Forest. This includes reconfiguring Nelson Drive trails for better multi-use access, building the Skyline Trail, replacing 21 bridges and installing wayfinding signs in Game Creek and on Teton Pass.
- Expanding our transportation options by installing dedicated bike lanes on Broadway and Snow King Avenues and launching the START Bike Share program.
- Maintaining and enhancing trails year-round by launching a winter single-track grooming program and expanding to a year-round Ambassador program that encourages respectful and responsible use.
- Inspiring the next generation of trail and pathway lovers through our elementary in-school education programs and our Youth Trail Crew.

It's been an honor to work with an organization dedicated to creating a future where traveling outside of cars is a safe and preferred option for everyone in Jackson Hole.

Wishing you a wonderful winter season, with plenty of time to get outside and enjoy Jackson Hole.

Best regards,

Phil Leeds
FOP Board President

BIKE SKILLS PARK INSTALLED AT THE COMMUNITY GARDEN

In 2018, Friends of Pathways partnered with Jackson Hole Community Pathways and Mountain Bike the Tetons to plan and build the first Bike Skills Park in Jackson. It provides the first accessible opportunity for younger kids to learn basic off-road bike skills. Youth of many ages flocked to the new bike park near the Blair Place Community Garden.

In September, we hosted an opening event and connected with over 100 community members who were enthusiastic about the park.

SNOW KING AVENUE BIKEWAY

Last June, Friends of Pathways worked with the Town of Jackson and Community Pathways to implement a bike friendly pilot project on Snow King Avenue. New striping, white bollards, curb bump-outs and planters were installed to better delineate motor and travel lanes and provide “visual friction” to encourage drivers and bikers to slow down and pay attention while moving through this very busy area.

LESSONS LEARNED

Average Daily Bike Counts Increased 15% from 2017 to 2018

Bike counters on Snow King Ave registered a 15% increase in summer bike traffic compared to 2017. Bike counts at Garaman Park only increased 2%.

Bollards Reduced Speeding on Snow King Ave

Bollards create “visual friction” which makes drivers and bikers more aware and attentive and less likely to speed. When people are more aware they are better bikers, better drivers, and better neighbors.

Separated Bike Lanes Clarify Rules of the Road

Separated bike lanes make the rules of the road more apparent for drivers and cyclists. Drivers reported feeling more secure about bikers not darting or swerving into the motor traffic lane.

Sparked Conversations!

In our opinion, the biggest success of this pilot project were the conversations sparked about street use. What makes a great street? How do we develop a street network that is welcoming to a wide range of users?

We hope you'll stay engaged in the conversation as it continues into 2019.

YOUTH TRAIL CREW TETON PASS BRIDGE PROJECT

Record spring run-off in 2017 caused significant structural damage to many bridges on the Teton Pass trail system, as well as eroding streambanks at unbridged crossings.

This year, the six members of the youth trail crew replaced and rebuilt the damaged bridges and constructed additional bridges at stream crossings where drop-offs and muddy bogs had formed.

Volunteer groups also helped with the effort, which started on National Trails Day. The project required moving many loads of lumber and materials to the bridge sites. We estimate that about 20,000 pounds of lumber were hauled!

WINTER TRAIL GROOMING

Our winter singletrack grooming program in Cache Creek canyon provides opportunities for runners, hikers, dog walkers, fat bikers and classic skiers to recreate along twelve miles of groomed and packed singletrack trails. The trail grooming program helps disperse use in the very popular Cache Creek area and gives people more choices about where to go and how to move.
